## 👤 Profile

Adaptable and solution-oriented Full Stack Developer transitioning to Sweden and seeking opportunities in software engineering, full stack development, or technology analyst roles. Proficient in both frontend and backend technologies with a strong grasp of HTML5 banners, dynamic CMS platforms, and performance-driven advertising solutions. Additionally, open to entry-level roles in business and data analysis where technical insights, report creation, and systems knowledge are valuable. Passionate about continuous learning and cross-functional teamwork.

## 💼 Work Experience

### Full Stack Developer – Planet Nine BV, Dhaka, Bangladesh

December 2019 – Present

- Develop HTML5 banners and Rich Media Ads using GSAP, Weborama formats (APTO, Swipecube, Native Mozaic, etc).
- Hands-on development with Laravel, Vue.js, Inertia.js, and Vite for building internal CMS platforms.
- Experience with DV360 and digital advertising metrics.
- Developed dynamic campaign tools and microsites based on analytics-driven decisions.
- Generated performance reports and banner delivery analysis for optimization suggestions.
- Collaborated with international design and strategy teams on technical feasibility assessments.

### Junior Software Engineer – Solution Art Ltd, Dhaka, Bangladesh

May 2019 – December 2019

- Team member in pilot development of CGRPMS at Bangladesh Coast Guard HQ.
- Performed requirement elicitation and system documentation.
- Maintained, secured, and updated Linux-based application servers.
